Hi Adina,

Thanks so much for your email – very useful information. Rick Picardi will be attending the June meeting for EPA. We'll be sending out an invite for a stakeholder meeting to be held soon and it would be good to have a separate conversation apart from that as well.

We'll reach back out soon.

Best,
Lia

Hey ladies,

Not sure who will be involved in the OECD deliberations regarding amendments to the plastic waste categories as influenced by the Basel decision. But I wanted to share what our partners have sent over to the European Commission, which we support.

- The Basel Convention Annex VIII hazard listing should be copied identically into the OECD Appendix 4 Part I List of Wastes Subject to the Amber Control Procedure.
- PVC should remain on the OECD green list as GH013 in Appendix 3 Part II.
- The new Basel Convention Annex IX non-hazardous wastes should be listed in the OECD Appendix 3 Part I.
- Regarding the new Basel Convention Annex II listings...the current Basel Convention Annex II listings of non-hazardous wastes (wastes from households... wastes from incineration. ...) are in the OECD Appendix 4 Part I, and controlled, as hazardous wastes are controlled, under Prior Informed Consent. We believe the new Annex II listings for plastics should be incorporated into the OECD Appendix 3 Part I, List of Wastes Subject to the Green Control Procedure.

Thanks and regards,
Adina
